National Rail Practice

Building on the recent acquisitions of Golder and Knight, WSP has established a National Freight Rail practice providing full-service engineering services for the freight rail infrastructure critical to the economy of both Michigan and the nation. WSP delivers safe, efficient freight rail consulting services that limit impact to operations and drive down operating costs. WSP builds on the freight rail expertise and existing relationships with private industry and public agency clients to create innovative, forward-thinking solutions for immediate rail infrastructure needs and long-term system prosperity.
