

TRACKS To The FUTURE

Hybrid Railroad Transportation and Engineering Program

Hosted by:

Rail Transportation Program
Michigan Tech Transportation Institute • Michigan Technological University

PennState
Altoona

South Carolina

FRESNO STATE

THE UNIVERSITY OF
NEW MEXICO

SUPPORT STUDENT TRANSPORTATION!

The 2nd iteration of Tracks to the Future program registrations are rapidly progressing. So far, 68 of the 120 seats (68%) across the six host universities have been taken by students from 20 states. One of our goals is to have the program available for students regardless their financial status. FRA covers the program costs, but students cover their travel to the host site. So far, 22% of registered students (15) have requested travel support and many others are expected to. If you want to help the students to learn of rail transportation, below is how to provide a corporate donation that supports student travel.

How to support travel:

1. Donate to Michigan
Tech Fund
By March 31st via link below

2. Send email to Amanda
to confirm your donation
(alkerttu@mtu.edu)

3. Students submit
“travel cost estimate”
to Tech for approval

4. Students submit
expenses for Tech
reimbursement

Tech Fund Link:
